Iteration 1

User Stories

Adam Yang, Ethan Kouris, Brandom Lim, Yuhan Zhou, An Khoa Nguyen

TEAM 35

User Stories

The following user stories outline the various functions of the web widget the team is developing.
**Note: These user stories are subject to change. This includes adding user stories, as well as changing the estimation and priority of each user story.**

EPICS	USER STORY	ESTIMATION (FIBONACCI)	PRIORITY	COMPLETION
	As a user, I would like to be able to view the map.	21	10	COMPLETE
	As a user, I would like to be able to see my current location on the map.	8	7	INCOMPLETE
	As a user, I would like to be able to see the centrepoint location on the map.	8	10	COMPLETE
	As a user, I would like to be able to see the locations of nearby restaurants on the map.	8	10	COMPLETE
Map Functionality	As a user, I would like to be able to set my centrepoint of the search radius by clicking on the map (so that I can find restaurant in certain areas)	8	9	COMPLETE
	As a user, I would like to be able to confirm a centrepoint after clicking on the map.	3	6	COMPLETE
	As a user, I would like to be able to cancel a centrepoint after clicking on the map.	3	7	COMPLETE
	As a user, I would like to be able to change the style of map so I can choose an aesthetic I enjoy.	34	4	COMPLETE
	As a user, I would like to be able to have the option to review a restaurant by clicking the restaurant on the map.	55	5	INCOMPLETE

	As a user, I would like to be able to have the option to bookmark a restaurant by clicking on the restaurant on the map.	21	6	INCOMPLETE
	As a user, I would like to search for nearby places so I can see what restaurants/cafes are close to me.	55	10	INCOMPLETE
	As a user I would like to be able to look up a restaurant name to find its location.	34	6	INCOMPLETE
SEARCH NEARBY PLACES	As a user I would like to be able filter restaurants based on categories so I can find a restaurant based on what I want to eat.	55	9	INCOMPLETE
	As a user, I would like to be able to set the search radius so that I can find a restaurant within a desired distance range.	89	9	INCOMPLETE
	As a user, I would like to be able to set my centrepoint so I can search for restaurants relative to the specific location set.	34	10	COMPLETE
	As a user, I would like to be able to change my centrepoint in case I change my mind on where I want to eat.	34	10	COMPLETE
SET CENTREPOINT	As a user, I would like to be able to delete centrepoint in case I no longer use the selected centrepoint.	13	7	INCOMPLETE

	As a user, I would like to be able to use my current location as my centrepoint so I can look up restaurants near me.	21	7	INCOMPLETE
TRAVEL METHOD + MAX TRAVEL TIME	A user, I would like to save certain centre point locations so I don't have to look up the same centrepoints every time I use the widget.	21	5	INCOMPLETE
	As a user, I want to set my max travel time, so that I know which restaurants are within my max travel time.	34	6	INCOMPLETE
BOOKMARKS	As a user, I want to be able to edit my max travel time in case I change my mind.	34	6	INCOMPLETE
	As a user, I want to be able to select the travel method to the restaurant, so that I can more accurately know how long it would take to travel to the restaurant.	34	6	INCOMPLETE
	As a user, I want to be able to change my current travel method in case I change my mind	34	6	INCOMPLETE
	As a user I would like to be able to add restaurants to my favourite list so that they can be easily accessed in the future	21	6	INCOMPLETE
	As a user I would like to edit or delete restaurants in my favourites in case my opinion of a restaurant changes	21	5	INCOMPLETE

	As a user, I would like to be able to sort my bookmarked restaurants so I can more easily find my favourite restaurant from particular categories.	21	4	INCOMPLETE
	As I user, I would like to be able to review bookmarked restaurants so that I can easily access and review the restaurants I've bookmarked in the past.	34	5	
REVIEWING RESTAURANTS	As a user, I would like to rate the restaurant I go to in order to provide feedback.	13	5	INCOMPLETE
	As a user, I would like to be able to edit or remove the review I give to a restaurant in case I change my mind.	13	3	INCOMPLETE
RANDOM FUNCTIONALITY	As a user, I would like to be able to look at a random restaurant in my general area, so I can more easily decide on a restaurant in the event I'm unsure	34	3	INCOMPLETE
	As a user, I would like to be able to set the maximum current distance from my own location, so when I receive a random restaurant location, it is not too far away	21	2	INCOMPLETE
	As a user, I want to be able to set the properties/traits of the random restaurant, so that I can dine at a place	34	1	INCOMPLETE

that has the feature I
enjoy.

Technical User Stories

The following user stories are technical user stories. They focus more on tasks the development team and other people that aren't the user.

USER STORY	ESTIMATION (FIBONACCI)	PRIORITY	COMPLETION
As a developer, I want to tidy up all HTML so that I can more easily and quickly edit the look and feel of the program if needed.	13	5	INCOMPLETE
As a developer, I want to plan out different classes needed in order to group similar objects together so that it will be easier to code when implementing.	35	10	INCOMPLETE
As a developer, I want to implement the classes I have planned so that the code can be efficient to allow the overall widget to run smoothly.	89	10	INCOMPLETE
As a developer, I want to review and change any code that runs slow to ensure maximum efficiency	89	8	INCOMPLETE
